Florida Virtual School, the recognized national online learning leader, is an established developer and provider of virtual K–12 education solutions to students, districts, and states all over Florida, the U.S., and the world.

We are pleased to virtually invite thought leaders, educators, and administrators throughout Florida and across the nation to attend our very first Florida Virtual TLC! FLVS leaders and guest experts will engage you with a variety of sessions via Elluminate, including Best Online Practices, Web 2.0, 21st Century Skills, Leadership, Literacy, and more.

Attendees will receive a certificate of completion, which may be submitted to your district for consideration of professional development credit.

For more information and a complete agenda, please visit [www.flvs.net](http://www.flvs.net)!
